Description

- Re-enable scite plugin and fix bug that was causing Title / DOI fields to be set to 0 due to a swallowed exception.

Installation Instructions

Disables the scite plugin from doing anything when it loads -- due to intermittent bug found in Zotero 6 upgrade. Please see discussion at [#38](#)

You only need to install once; it should auto-upgrade via Zotero when new releases are published.

NOTE: If you use Firefox, make sure to right-click and save the XPI file, don't just left click. It will be corrupted otherwise.

1. Introduction

From the early 1990s to the present, digital technology has continuously developed, reflecting the enormous revolution in the way that governments, corporations, firms, customers as well as governments. In particular, the Internet is the most developing media mean in history, changing significantly year by year. The Internet has changed the banking sector significantly.

sectors, the Internet has created big movements in this business sector {Citation} (Jayawardhena & Foley, 2000). The banking sector is one of the sectors most affected by technology (Prendergast & Marr, 1994; Mols, 2000) due to its ability to process and provide service information to all users (Tan & Teo, 2000). In addition, increasing competition in the banking sector forces suppliers to develop and use alternative distribution channels (Daniel, 1999). Therefore, the application of information technology
